Subject: ASI 27 Paver change clarification

Response Required By: September 27, 2016

Drawing / Spec Reference:

Information Requested:

E/L500 in ASI 27 identified multiple sized Wausau pavers in the north areaway of the building. The paver contractor planned to use Hanover pavers per the basis of design listed in 071413 2.4A. Wausau is a higher priced material (pricing pending) as well as voids the total warranty provided by American Hydrotech (see attached letter).

Suggestion: Please advise if the Hanover product will be acceptable in lieu of the Wausau.

Response: Hanover products are acceptable substitute to Wausau products.
All pavers on pedestal shall be color M2407.
All pavers on grade shall be color M2407
Courtyard permeable paver color M2407
North edge of NW Entry paver color to be M1428.

ARCHITECT'S RESPONSE:

This information is provided as an interpretation of the Contract Documents for implementation. It is not an authorization for change to the Contract Sum or Contract Time. If this information results in a claim for a change to the Contract, the Contractor shall notify the [Construction Manager][Architect] of a change through the change process.

Dear Thom:

This letter written to clarify the Hydrotech warranty with regard to the pavers used in our assembly.

American Hydrotech works with and provides Hanover pavers as part of our Ultimate Assembly®. In addition to the waterproofing membrane coverage provided, this warranty also covers the pavers against material defects and freeze-thaw breakage and also covers the cost of removal and replacement of the pavers in the event of a leak and the membrane needs to be accessed to conduct a repair. Since Hydrotech works exclusively with Hanover for paver products, this total system warranty coverage can only be provided when Hanover's pavers are used and supplied by American Hydrotech.

Please let me know if there are any follow-up questions concerning this.
