REQUEST FOR INFORMATION **DATE:** January 26, 2017 **NO.:** RFI-426

To: Cannon Design

Attn: Kelvin Patel

From: Paric Corporation

Requested By: Joe Voypick

Project Name: 15051-Webster University Interdisciplinary Science Building Project No.: 15051

Subject: window shade visible through exterior glazing

Response Required By: February 02, 2017

Drawing / Spec Reference:

Information Requested:

As discussed after the OAC meeting on 1/24 the window shade equipment will be visible from the exterior in the courtyard area. Kelvin Patel mentioned possibly installing black drywall behind the glass in this area. Please provide a detail of preferred method.

Response: We received field measured conditions of the kicker conflict condition at conference room on 02/08/17.
Design team needs to coordinate, review and understand the impact on various elements.
This most probably will require a custom brackets to mount shades.
If Paric has a potential solution please provide for review.

ARCHITECT'S RESPONSE:

This information is provided as an interpretation of the Contract Documents for implementation. It is not an authorization for change to the Contract Sum or Contract Time. If this information results in a claim for a change to the Contract, the Contractor shall notify the [Construction Manager][Architect] of a change through the change process.
