Project Name:	15051-Webster University Interdisciplinary Science Building	Project No.: 15051
---------------	---	--------------------

Subject: Coordinated site lighting

Response Required By: March 06, 2017

Drawing / Spec Reference:

Information Requested:

The electrical site lighting has not been fully coordinated with the civil plan. Please provide layout dimensions and elevations for the pole and bollard lights.

Response:

Refer to AutoCAD drawing e-mailed to contractor and attached here for reference. Refer to sheet E0001 in upcoming ASI for Type EF36 bollard modifications shown here. Coordinate lighting fixture base configurations with sheet E0402. Coordinate elevations with civil site plan and civil engineer.

ARCHITECT'S RESPONSE:

This information is provided as an interpretation of the Contract Documents for implementation. It is not an authorization for change to the Contract Sum or Contract Time. If this information results in a claim for a change to the Contract, the Contractor shall notify the [Construction Manager][Architect] of a change through the change process.
