

Date: March 14, 2017

Project: Webster University
Interdisciplinary Science Building
8274 Bidg Bend BLVD
St. Louis, MO 63119

Subject: LEED requirements for MR 6, and MR7

To Whom It May Concern:

The casework for this project is manufactured by Institutional Casework, Incorporated, in Paris, Tennessee. The following is a break-down of the LEED information.

MR 6 Rapidly Renewable Material:

No rapidly renewable material is specified or provided for this project.

MR 7 Certified Materials:

The FSC Chain-of-Custody number for Institutional Casework as indicated on delivery receipt and invoice is RA-COC-001156. A copy of the certificate is attached. The FSC Certified Wood percentage will be 70%. As required by FSC, the invoice will indicate the wood cost and FSC claim, and the delivery receipt will indicate the FSC claim.

Sincerely,

Wayne S. Cathey
Director of Engineering
Institutional Casework INC.
