Webster ISB Construction Waste Management Plan:

- Preexisting concrete and materials will be removed and recycled via *Eco Recycling Co.*
- All recyclable materials will be stored in same bin.
- All recyclable materials will then be removed from site, and sorted by *Progressive Waste.*
- All non-recyclable materials will be stored in various bins around premises.
- All non-recyclable materials will then be removed from site, and disposed of by *Progressive Waste.*
- Subcontractors will be informed of proper disposal procedures. (Recyclable vs. non-recyclable).
- The contractor takes responsibility for enforcing and tracking the plan throughout the construction process via invoices from removal parties. (ex. invoice attached)

Commingled Waste Recycler: *Progressive Waste Systems*

LEED is an internationally recognized green building certification system, providing third-party verification that a building or community was designed and built using strategies aimed at improving performance across all the metrics that matter most: energy savings, water efficiency, CO₂ emissions reduction, improved indoor environmental quality, and stewardship of resources and sensitivity to their impacts.

Developed by the U.S. Green Building Council (USGBC), LEED provides building owners and operators a concise framework for identifying and implementing practical and measurable green building design, construction, operations and maintenance solutions.

LEED is flexible enough to apply to all building types - commercial as well as residential. It works throughout the building lifecycle - design and construction, operations and maintenance, tenant fitout, and significant retrofit. And LEED for Neighborhood Development extends the benefits of LEED beyond the building footprint into the neighborhood it serves.

CANNON DESIGN SUBMITTAL NUMBER
RECEIVED DATE

- ☐ **A. No Exceptions Taken**
No further review of submittal is required.
- ☐ **B. Make Corrections Noted**
Incorporate corrections in work;
resubmission is not required.
- ☐ **C. Revise and Resubmit**
Revise as noted, and resubmit for review.
- ☐ **D. Rejected**
Submittal is not in compliance with Contract Documents;
provide new submittal.
- ☐ **E. For Record / Information Only**
Submittal was reviewed for Record / Information
purposes only.
- ☐ **F. Not Required for Review**
Submittal is not required by Contract Documents
and has not been reviewed.

Review is for conformance with the design concept of this project and for general compliance with contract documents. Contractor is responsible for quantities, dimensions and compliance with contract documents and for information that pertains to fabrication processes, construction techniques and coordination of this work with all trades which will be affected thereby. This review is null and void if submittal deviates from contract documents and does not indicate or note deviations.
