

Cleaning Guide

**Pattern:** Universe**Color:** Cosmic**Product Number:** 09072600**Content:** 50% Post Consumer Recycled Polyester; 50% Polyester**WS General Recommendations**

- Clean with water-based foam or upholstery cleaner or dry cleaning solvents
- Do not saturate with liquids
- Do not get the furniture wet

Regular Maintenance

- Vacuum regularly
- Use the proper upholstery attachment to avoid pilling and remove dust and lint
- Do not rub or scrub as this may damage the fabric
- Clean periodically to remove build up
- Promptly treat spots and stains

Stain Treatment and Spot Cleaning

A professional cleaning service is recommended

Treat stains quickly

- It will become increasingly difficult to remove the longer a stain is allowed to set
- Pretest any cleaning method or agent in a small hidden inconspicuous area
- Several less concentrated applications are less damaging than one concentrated application

Do not let fluids penetrate the surface

- Remove fluids immediately by blotting with a clean, colorfast, absorbent cloth

Remove solid or semi-solid substances

- Using a flat object, remove as much of the stain as possible
- After removal, vacuum thoroughly using the proper attachments before cleaning with an agent

Water-based stains

- Using a soft brush or sponge, apply warm, soapy water to the stain

Oil-based stains

- Use a solvent or dry cleaning solution. Do not apply cleaning agent directly, apply to a cloth or sponge.

For all stains

- Use light, quick strokes and start from the outside of the stain and work towards the center
- Do not rub or scrub as this may damage the fabric
- Do not use heat. Heat will set the stain.
- Do not over wet as this may leave a ring
- Soak up any remaining cleaning solution
- Use a clean cloth and cool water to remove any residue
- Allow fabric to dry thoroughly
- Vacuum well using appropriate upholstery attachment

Essentials® Program

All fabrics in this collection are available for **Essentials**, American Seating's quick-ship program, denoted with an E.

Customer's Own Material (COM)

Customers may specify COM fabric for use on American Seating products. Samples of the COM line must be submitted to American Seating prior to order placement. Your American Seating sales representative or dealer can provide exact procedures for approval of a COM fabric.

Dye Lot Variance

American Seating employs specific quality control procedures in the acceptance of all fabric lines. Industry-wide color tolerances allow for slight dye lot variations among fabric runs.

MEANDER

Grade 2

100% Polyester

Type of Weave Yarn
Weight 0.73 lb. per linear yard
Width 66"
Directional Yes
Flammability ASTM E-84 Class 1/A
Light Fastness AATCC-16A Class 4; 40 hours
Cleaning Code WS

WS - Clean with water-based cleaning agent, foam or pure, water-free solvents. Vacuuming or light brushing is recommended to prevent dust and soil build-up.

The printed colors on these pages are representative of our fabric offering. Actual material samples should be requested for final fabric selection.

Memo samples for projects are available online at memosamples.com or call 800.366.6839.

CANNON DESIGN SUBMITTAL NUMBER
2/17/17
RECEIVED DATE

- ☐ A. No Exceptions Taken
No further review of submittal is required.
- ☐ B. Make Corrections Noted
Incorporate corrections in work; resubmission is not required.
- ☒ C. Revise and Resubmit
Revise as noted, and resubmit for review.
- ☐ D. Rejected
Submittal is not in compliance with Contract Documents; provide new submittal.
- ☐ E. For Record / Information Only
Submittal was reviewed for Record / Information purposes only.
- ☐ F. Not Required for Review
Submittal is not required by Contract Documents and has not been reviewed.

Review is for conformance with the design concept of this project and for general compliance with contract documents. Contractor is responsible for quantities, dimensions and compliance with contract documents and for information that pertains to fabrication processes, construction techniques and coordination of this work with all trades which will be affected thereby. This review is null and void if submittal deviates from contract documents and does not indicate or note deviations.

A/E COMMENTS

☐ See attached sheet(s) for additional comments

Resubmit 'FAP-1' sample with appropriate core (Fiberglass core) to have NRC of 0.85 per specification.

Provide NRC for 'AP-1', per specification NRC of 0.85 required.

REQUEST FOR INFORMATION **DATE:** April 18, 2016 **NO.:** RFI-038

To: Cannon Design

Attn: Kelvin Patel

From: Paric Corporation

Requested By: Devin Gates

Project Name: Webster University Interdisciplinary Science Building Project No.: 15051

Subject: Additional BP 3 clarifications

Response Required By: April 25, 2016

Drawing / Spec Reference:

Information Requested:

Spec 098413 is for the Wood Acoustical Panels but on ID0203 under 098413 is listed FAP-1 which is a Fabric Wrapped Panel. There is no spec for that product other than the Material Finish Legend.

G&S Panel is listed in the Finish Legend under 098414 – Stretched Fabric Systems. No such spec # in the spec book.

Clipso is listed in 097713 – also called Stretch Fabric System – but the Material Legend does not list and we cannot find any designation for this product on the plans.

Suggestion: Please clarify.

Response:

ARCHITECT'S RESPONSE:

This information is provided as an interpretation of the Contract Documents for implementation. It is not an authorization for change to the Contract Sum or Contract Time. If this information results in a claim for a change to the Contract, the Contractor shall notify the [Construction Manager][Architect] of a change through the change process.

For FAP-1 and AP-1, use specification section 098433 Sound Absorbing Wall Units.
Use 097713 for the stretched fabric indicated on 1/A0602
