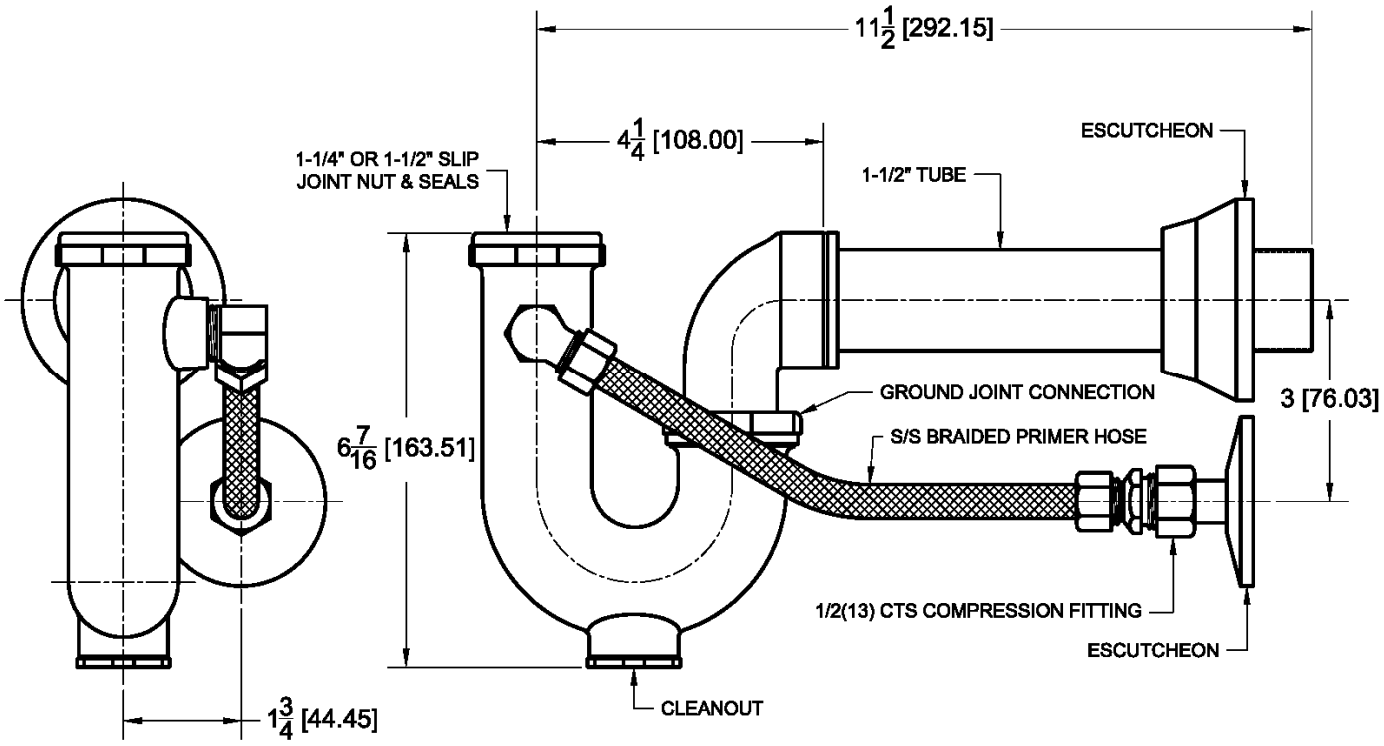
4401-SJ Trap Primer

Regularly Furnished: Polished chrome plated brass p-trap with ground joint connection, wall and tube escutcheons, ½" (13) braided stainless steel primer tube, cleanout with hex plug and 1-1/4" (32) / 1-1/2" (38) slip joint inlet connectors.



Function: The water saver trap primer utilizes the temporary "head" of water in the p-trap which occurs during use of plumbing fixtures. This temporary head of water is sufficient to cause an overflow through the connection and allow a small amount of water to flow by gravity through connected piping under the floor to a floor drain trap primer connection, maintaining the trap seal.

Corrections or comments made on shop drawings during this review do not relieve contractor from compliance with requirements of drawings and specifications. This check is only for review of general conformance with the design concept of project and general compliance with information given in contract documents. Contractor is responsible for: confirming and correlating all quantities and dimensions; selecting fabrication processes and techniques of construction; coordinating his work with that of all other trades; and performing his work in a safe and satisfactory manner.

The review of this submittal is limited to the general conformance with the designated design concept and intent of this project and with the general compliance of the information provided in the contract documents. All comments, remarks and notations made on the submittal(s) as a result of this review do not relieve the contractor from full compliance with requirements of the contract documents. Approval for a specific item shall not include approval of an assembly of which the item is not a component. The contractor is solely responsible for rough-in and installation confirming and correlating all quantities and dimensions; selecting fabrication processes and techniques of construction; coordination of this work with that of other trades on this project; and in a safe and satisfactory manner. All work shall be installed in full compliance with the manufacturer's recommendation, Federal, State and Local rules and regulation and the Authority Having Jurisdiction (AHJ) and applicable adopted codes and standards.
