CU-Structural Soil®

Dear Laura,

This letter confirms that Buchheit Supply, Inc. (license #16-243110) has been qualified and licensed to produce and sell CU-Structural Soil®.

Buchheit Supply will use the approved Meramec B as supplied by Winter Brothers Material Company and Simpson Materials, and Old Monroe non-limestone angular gravel as supplied by Kimaterials in the production of CU-Soil®.

We have approved the clay loam soil (University of Missouri- Fisher Research Center, Lab. No. 5369, reported 07/01/16), in the production of CU-Soil®. Due to the use of a non-limestone angular gravel, the adjustment with sulphur to lower the pH is not necessary.

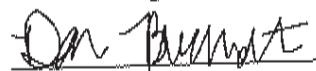

Lastly, Buchheit Supply, Inc. will use the required amount of Gelscape® Hydrogel Tackifier and will follow all of Amercq's blending procedures and specifications.

Buchheit Supply, Inc. has utilized these angular gravels and similar soils on many successful projects throughout the state of Missouri. Please let us know how we can be of further assistance.

Sincerely,

Brian S. Kalter
Operations Manager
CU-Structural Soil®

I acknowledge and confirm the above.

Don Buchheit
Buchheit Supply, Inc.
