RE: Webster – ISB 2nd, 3rd, and 4th Floors B Side Only
Job #16041

This letter is to confirm our warranty for the above referenced project. Supplied Industrial Solutions warrants that the new equipment furnished under our contract is completely installed and has been checked out to insure proper operation. Please provide a copy of the balance report for the 2nd, 3rd and 4th Floors "B" Side.

We guarantee the workmanship, material and new equipment for a period of **one (1) year starting August 7th 2017 and ending August 7th 2018.** If during this period any of the new equipment covered under the contract fails due to defects in manufacture or installation, this equipment will be replaced or repaired, at our option, during normal working hours (8:00 a.m.-4:00 p.m., Monday through Friday). There will be an extra charge of $50.00 per hour for repair labor authorized after normal working hours.

Our guarantee does not include routine maintenance of equipment. **It is necessary to complete a minimum of two (2) routine maintenance inspections per year**. Failure to do so will render our warranty null and void.

If you choose, however, to use another qualified heating and air conditioning service company, please forward copies of their reports indicating inspection prior to the oncoming heating / cooling seasons.

Alterations or changes to installed systems (duct, HVAC equipment, automation/controls, and piping) by anyone other than Supplied Industrial Solutions personnel will result in voiding the warranty.

We do not cover replacement or repair of new equipment damaged by over or under voltage, lack of proper maintenance, misuse, or "acts of God" such as lightning, hail, etc.

Sincerely,

Bob Yanics
